CBD advertising is highly regulated and constantly changing, but there is significant opportunity in the confusion. Basis' world-class Success Managers are true partners to CBDeebly, bringing Basis expertise to CBDeebly's strategic vision.

CBDeebly, a division of CleverFunnel, propels CBD brands into the using vertical expertise, CBD-specific advertising tactics, and risk-free data-driven strategies. They pioneered the PDM framework which uses a brand's data to build audience Personas, understand the Drivers that resonate, and craft effective Messages.

"Hands-on, strategic, and technically capable. It's rare to find someone who can answer issues both technically and strategically. Our Customer Success Manager can answer most questions without running to a technical team and I learn something new every time we speak. -Luke Rothschild, Ad Scientist at CleverFunnel

Chris Franks, CEO of CleverFunnel adds, "We're trying to do advanced, technical things. We're not standard. We do things differently and our account team is not only supportive, they contribute. **We see them as partners, which is really high praise in our world.**"

“The blend of advanced tech and remarkable support has been a huge success in the CBD world.

Basis, our account team, and our PDM framework has led us to a **198% ROAS** for one of our clients.”
